Compass

An Inspirational Journal
Created by the Heliotrope Foundation

The Heliotrope Foundation

We at the Heliotrope Foundation feel it is more important now than ever that we turn to the arts for inspiration and healing.

In response to the current global crises at hand, we created *Compass*: a unique and beautiful handbook: a collection of creative activities and an inspirational journal.

The aim of the project is to generate work for artists while sharing the joy and necessity of art to heal, grow and play. We are making *Compass* available to you for free download. Enjoy!

Artists:

Swoon (front cover)

1: Bunnie Reiss

2: Beau Stanton

3: Meagan Boyd

4: Alyssa Dennis

5: Gaia

6: Karmimadeebora

Compass is a PDF that will be distributed for free to those at home, those with children, and those looking for something to be motivated by.

If you would like to distribute *Compass* in your local area, please contact us: info@heliotropefoundation.org

Thank you to all the Heliotrope Artists participating in this project!
